

HERE'S the SCOOP

May 11th - 15th

LOOK WHAT WE ARE LEARNING

Last week, we learned about the parts of a flowering plant by creating an edible model. We experienced first-hand how hard worker bees work to get nectar by running a nectar relay. We ate our way through the life cycle of a butterfly.

Next week, we will be exploring birds, examine bunnies, and go on a bird scavenger hunt.

This week's academic focus:

Literacy: Short Vowel Uu and Ee Review

Math: Subtraction Problems, Using counters to Subtract, and Crossing out to Subtract

FRIENDLY REMINDERS

- May 15th - Graduation 2:00 Civic Center Gym
- May 22nd - Last Day of School
- May 25th - May 29th Closed
- June 1st - Summer Camp begins
