

HERE'S the SCOOP

November 6th-10th

LOOK WHAT WE ARE LEARNING

It is hard to believe that Halloween is over and Thanksgiving is right around the corner.

The next couple of weeks we are going to discover the wonderful things about autumn. We will go on a fall scavenger hunt, go on a picnic (weather permitting) and do a leaf color experiment. To incorporate Thanksgiving, we will be learning about the Wampanoag Tribe.

I have begun to send home our alphabet tote. Your child will need to find items in your home that begin with a certain letter sound. I will have a note in the tote letting you know which sound and the date to return it. Your child will then present all the items to their class family the day the tote is returned.

Academic Focus:

Literacy: Sound /o/, Spelled 'Oo', Sound /k/, Spelled 'Kk', Sound /g/, Spelled 'Gg', Sound /i/, Spelled 'Ii'

Math: make a set of objects to match the number given, string a given number of beads, and building towers of four blocks using positional words
